(54) COFFEE EXTRACTOR

(57) Abstract:

PURPOSE: To provide the coffee extractor for suppressing an increase of astringent taste in the course of warming, and holding a delicious coffee extract even after warming.

CONSTITUTION: In a preserving vessel 15 of a coffee extract, an activated carbon vessel 16 in which activated carbon 17 is contained is provided. In such a way, the activated carbon 17 sucks efficiently an astringent taste component of the coffee extract generated in the course of warming and suppresses an increase of nasty astringent taste in the course of warming.
